CASH FOR CASEY

Bonnie L. Wilson - Trainer
Randy R. Wilson - Jockey
Purse \$18,500 May 31, 2009

Cash For Casey does it again! We received this win photo from Ronna Pauley, Bill Conley's daughter. This was the third start for the two year old gelding, and his second win. He also has one place to his credit making him the Leading 2 Year Old Gelding according to the Appaloosa Journal. The above race was an Appaloosa Allowance Race held on May 31st at Remington Park.

Cash For Casey is sired by Takin In The Cash, and out of Kisses For Casey. Congratulations!

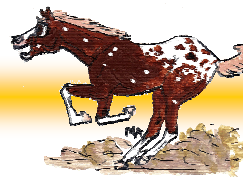

Welcome To The Ranks!

Robert Redding of Tulsa joined Sooner ApHC earlier this spring. A few weeks back, he sent us this picture of his stallion, Ima Smart Dual (at left).

According to ApHC records, this 2005 stallion is sired by Duals Cow Smart (AQHA by Dual Pep), and out of Paulas Poco Siemon, a great granddaughter of Nugget Jim.

Maybe we'll see Ima Smart Dual in next years list of stallions participating in the Super Stallion Stakes!

There's Always Next Year

Sooner member Tanner Chronister, (above) grandson of Sooner members Jim and Donna Chronister, gave it his best at the Jr High School Rodeo Semi-Finals, the weekend of May 31st. While he didn't make it to the finals, it certainly looks like he put on a pretty good show.

Thanks to Donna Chronister for sharing this with us.

Condolences To The Sullivans

Sooner member Debbie Sullivan sadly reports that on June 2nd, they lost the smallest of the twin fillies when she broke her knee. She was so fragile that when she went to get up and nurse, the knee just gave way. They had no choice but to give up and put her down.

We ran the above picture in the last newsletter announcing the twins. At right is a picture taken after Duane and Debbie lost little "Calico Girl." Duane is just visible in the background. Debbie says that the mare, not knowing why the other one disappeared, has become much more protective of the remaining filly.

Tell Me About The Rabbits

Dedra Tiger has sent word that her granddaughter, Katelynn, is now the proud owner of some spotted show rabbits. Dedra has promised us a more complete story which we hope to insert a little later on in this issue.

We understand that Katelynn and her rabbits have done very well during the very short time she has had them and been showing them.

Editor's note: I started off with one rabbit picture to go along with this note, but before I finished, they took to multiplying, and I ended up with at least a half dozen of them on the page!

Before And After

Dar Arrowood, Sooner member from Michigan's Upper Peninsula, sent us a few pictures to let us know that they've been very busy with a few projects around the place. They put in a new driveway to the other side of the river property which is the 'before' and 'after' pictures above.

Dredging out their artesian stock pond (left) was also accomplished, then they hand caught 100 trout to restock it.

On the right, they also did some nice landscaping around one of the run in areas. It's looking really good!

One Huge Joke Was On Marian!

Photos by Karen Marr

Don and Karen Marr decided weeks in advance they'd play a good trick on Jerry and Marian when they brought their last Forty One JJ filly to Claremore, Oklahoma. Karen told "the Okies" Don wouldn't be able to make the trip, but her cousin was coming with her to help her drive. When they arrived at Claremore, Marian was the first one to step up in the trailer to look at the filly and only glanced at the "cousin" as she stepped up; then reached to shake hands with him for introduction. IT WAS DON in "disguise" with dark glasses, a cigar (he doesn't smoke) and an "outback" hat on! Jerry was already laughing outside the door as he recognized Don first.

As you can guess, the four had plenty of laughs and a good visit including their trip to Editor Gerry's place in Oktaha, Oklahoma to deliver the JJ filly after she spent the night with Phyllis Hustace and daughter, Valerie, at their place; then made a stop at Ingersoll Ranch to meet Joleta.
